

E Squared Technical Textiles Fish Grade String Reinforced LLDPE

American made **E Squared Flexliner™FG** is a high-quality pond liner that offers outstanding performance and reliability, while also providing a safe and healthy environment for fish and plant life.

With its superior physical performance and excellent buried soil resistance, **E Squared Flexliner™FG** is the perfect choice for anyone looking to create a beautiful and healthy pond or water garden. Available in a range of thicknesses and with encapsulated edges for added protection, this product is easy to fabricate and install and provides long-lasting protection and support for your aquatic ecosystems like fish hatcheries.

Compared to other pond liners on the market, **E Squared Flexliner™FG** stands out for its exceptional flexibility and weldability, which makes installation a breeze. And because it is made from high-quality, fish-safe materials, you can trust that it will not leach harmful chemicals into the water, ensuring the health and well-being of your aquatic inhabitants.

Overall, **E Squared Flexliner™FG** is an excellent choice for anyone looking for a reliable and safe pond liner that will support the growth and health of fish and plant life for years to come. With its unbeatable combination of performance, durability, and safety, it is the perfect choice for any pond or water garden project. Aquaponic, Hydroponic and Aquaculture safe.
